

Boomerang - When Life Comes Back To Bite You (The Jean Rubin Series Book 2)

This second book in the Jean Rubin Series continues the hilarious account of Jeans stressed out life. Now that her daughter safely married off and she has dealt with murder, new in laws and assorted mayhem she is expecting some peace and quiet. Uh...no. Out of nowhere her confused son shows up with his pregnant girlfriend and they move in causing an upheaval of family dynamics. All the while a major scam is developing in Scottsdale threatening to ensnare Jean and Maury. To make matters even more complicated they lose patience with the direction of local politics and decide to take a hand. All this makes for a roller coaster story filled with smart dialog, constant action and wickedly funny satire. There are two kinds of people in Scottsdale: Those who are angry because they think they are in the book and those who are angry because they think theyre not.
