

Suit of Lights

In this fourth, and final, installment in the tetralogy, Guy Willard is out of the Navy and on the streets. Choosing to make his living by writing gay porn, he turns to prostitution by preference as a way of making ends meet and to find the raw material for his writing. But in his search for kinkier and ever more dangerous thrills, he indulges in acts of narcissism sometimes bordering on the pathological. *Suit of Lights* is a daring and flamboyant conclusion to a series which has been highly acclaimed for its realistic eroticism. The previous books in the series, in chronological order, are: *Foolish Fire*, *Mirrors of Narcissus*, and *Navy Blue Dreams*.
