

Stathis Rakis abandoned his small Greek village for a more worldly life, first in San Francisco, where the Dot Com Bubble had already burst, and then in Paris, France, where he is pursuing an MBA at an elite business school. After falling helplessly in love with a liberal New England journalist, Stathis moves to the United States to begin as a consultant for a company called Command. Luxury is a given, happiness is not. As the economy recovers and a new bubble expands in a post-9/11 world, Stathis drifts upward, baring witness to the criminal decadence that will become the 2008 financial crisis, as well as his new habits of indulgence - drugs, sex, and insider trading.
