

[Siren Sensations: Erotic Consensual BDSM Romance, spanking, belting, sex toys, HEA] Caitlyn King has worked as Luke Martels right hand for a decade. Shes shocked when he announces that the company is being sold. Shes loved him for years and she finally has to accept that he will never see her the same way she sees him. Or does she? Luke Martel has abandonment issues from childhood, so he never lets a woman get close to him, not even Caitlyn. When she refuses his offer to work for him personally after the sale, hes feels betrayed and decides to attend the Black Diamond Clubs annual charity sub auction for some no strings companionship during a month-long visit to Bora Bora. Two can look for no strings companionship, so Caitlyn signs up for the auction, too. Shocked when he sees Caitlyn on the auction block, Luke outbids his competitors without thinking about what this means. Will his impulsive purchase give them both what they are looking for? ** A Siren Erotic Romance

PROLOGUE: They met at college They bonded over BDSM at the Black Diamond Club They became rich founding BDC Technologies They spent the last decade achieving material success: Now its personal Welcome to the Billionaire Doms Club. Luke Martel, Max Malone, Andrew Cooper, and brothers Dillon and Jacob Harris first met in college. They quickly recognized that they all shared some common traits. Besides all coming from humble backgrounds, all were highly intelligent and driven to succeed. It wasnt until Nathan West, the owner of the Black Diamond Club, took a liking to the five young men and gave them part-time jobs that they realized that they also shared a love of BDSM. It was there they discovered they became friends. The Club, or the BDC as it was also known, became a refuge. Besides working and playing at the BDC, they spent hours in the lounge talking about the future and it was there they got the idea to form their own technology company after graduation. It was all idle talk at first, but then they graduated from college and none of them were happy. Then the talk became planning. They worked out their business plan, developed their product ideas. They just needed a kick in the pants to quit their jobs and start making their dreams come true. That came from Nathan who also became their first investor. He believed in them and, even more important than the money, he gave them the encouragement they needed to quit their jobs and pursue their dreams. It was Jakes idea to name their company BDC Technologies, in honor and gratitude to Nathan and theyd all unanimously agreed with his suggestion. But in ten years, BDC will stand for Billionaire Doms Club as well! Luke declared. They all laughed and toasted, but it was not an idle boast. It took closer to eleven years, but the Billionaire Doms Club became a reality when BDC Technologies was purchased by a large conglomerate. Now they had more money than theyd dreamed about. The only thing missing was love.
