

During the year 2399, a team of two computer hackers doing a routine job for an unknown client, unwittingly trigger an Artificial Intelligence's elaborate plan to gain a physical presence into our world. The two hackers are forced into a frantic escape for their lives and along their way they meet many allies and foes, only they're unsure about who's really a friend or an enemy. In a cataclysmic showdown with this Artificial Intelligence, a side of this hacking team discovers the other has a hidden agenda. A few questions arise: What are this AI's real intentions? Does it care for humans? Does it have a soul? Find out about Mankind's destiny in this thrilling account of a possible future, made scary by its plausibility.
