

Born with an Intersex condition in a rough, working-class city, the harassment and hate Terry Tomey experiences for being bi-gendered and Two-Spirit drives them to the brink of suicide--yet they are saved by the love and acceptance of Darla. The two incur the wrath of their families and their community as they fall in love and graphically explore their queer sexuality. Forcefully separated, they spend the next twenty years trying to find each other and to uncover the real truth as to why they were kept apart.
