

# Legend of the Dawn: The Epic Frontier Adventure of a Lifetime

Having been drawn to the wild for a number of years, young Luke McKinney is forced to leave 1839 St. Louis for the North Country even sooner than he expected to go. At 17, along with a female companion and an elderly father figure, he is literally running for his life. With the law pursuing him and the wilderness unforgiving, he finds himself caught up in a survival system that has nothing to do with civilization or laws. Then the unthinkable happens, the only love of his life is taken from him. It is during the pursuit of her captors that Luke finds a strength and determination that will shape his moral existence for the remainder of his life. This is the first book of a trilogy that spans the lives of Luke McKinney and Breanne Bruyere, their undying love, through hell and high water, for over 50 years.
