

## On a Cold April Night: A Tale of the Titanic Disaster

This is the story of Christopher Mitchell, a quartermaster on the Titanic. He is a lonely man who wishes he could get back together with his girl, Diane Daniels. The liner leaves Southampton for her maiden voyage. While leaving harbor she nearly collides with another passenger liner. This raises Mitchell's hair. As the ship crosses the Atlantic, Mitchell has dreams and flashbacks with his love Diane. He did not read her last three letters and considers doing so, but decides to wait until he reaches New York. The quartermaster dreams of the time he was a deck hand on the excursion General Slocum eight years earlier. The boat catches fire and Mitchell fails to save Diane's father. He blames himself for his girlfriend's father's death. When the Titanic strikes an iceberg, Mitchell is faced with another life-or-death situation.
