

Trafalgar. an Eyewitness History

In the battle of Trafalgar in 1805, the British fleet defeated the French and Spanish ships off the coast of Spain. This action marked the end of Napoleons plans to invade Britain. Although it cost him his life, it also made Nelson Britains great hero. Through letters, diaries and other documents of those who fought the battle, this book brings together first-hand accounts of the lead-up to battle, as well as the conflict and its aftermath.
